

## Stormwater Management Practices

(Check Appropriate Practice and Number of Facilities)

1. SWM Ponds (e.g. micropool extended detention, wet, wet extended detention, multiple and pocket pond systems): \_\_\_\_\_ Number: \_\_\_\_\_
2. SWM Wetland (e.g. shallow wetland, extended detention shallow wetland, pond/wetland system, and pocket wetland): \_\_\_\_\_ Number: \_\_\_\_\_
3. Infiltration Systems (e.g. infiltration trench, infiltration basin): \_\_\_\_\_ Number: \_\_\_\_\_
4. Filter (e.g. surface, underground and perimeter sand filters, organic filters, pocket sand filters and bioretention systems): \_\_\_\_\_ Number: \_\_\_\_\_
5. Open Channel Systems (dry swale, wet swale): \_\_\_\_\_ Number: \_\_\_\_\_
6. Other: \_\_\_\_\_ Number: \_\_\_\_\_
7. Nonstructural SWM Devices (SWM techniques that use natural measures to reduce pollutant levels, do not require extensive construction efforts and/or promote pollutant reduction by elimination of pollutant sources): \_\_\_\_\_ Number: \_\_\_\_\_
8. Channel Protection Storage Volume: YES NO
9. Number of Facilities Used for Treatment of Channel Protection Storage Volume: \_\_\_\_\_
10. Overbank Flood Control Facilities: YES NO
11. Number of Overbank Flood Control Facilities: \_\_\_\_\_
