TREASURER'S REPORT

August 31, 2021

With the new year the report has taken on a new look. This change is intended to provide for additional transparency and consistency with the County's financial system. Comments are always welcomed, as we intend to provide the Board with useful information and a view of all the available funding provided to the agency. Our goal is to provide the best view of how our tax dollars are being expended to provide affordable housing and economic development to all areas of the County. Over the past year the Redevelopment Authority has been steadfast in their mission, in contributing to the creation of a diverse and vibrant economy and living environment within Prince George's County. Through community building techniques and providing responsible and responsive development and redevelopment that is designed to enhance the quality of life, balanced growth, and job creation for diverse sustainable communities. As we embark upon this new year it is the agency's intention to continue their mission even as the pandemic continues to make things difficult.

Operating Budget

The RDA financials are currently being reviewed for the closed out of fiscal year 2021. With the creation of the new budget and the continued strain related to the pandemic. The FY2022 budget remains vigorous enough to cover all the expected daily operations as well as providing support for the Board members. Although the financial reports may not show budgets for every line item all expenditures were taken into consideration when the budget was created.

Capital Improvement Program

The new year shows a lot of promise for Prince George's County. With the addition of the Cheverly Hospital site and the PEPCO energy sub-project, along with the continuous progress in both Glenarden and Suitland projects. The agency remains diligent with multiple smaller projects to include, the Net Zero projects, Housing Rehabilitation Assistance program, Commercial Property Improvement program as well as the Community Impact Grant projects. Several development projects have been and continues to be planned for the coming years. Stay tuned for exciting new looks throughout the County. The County's finance department has started the annual audit process which involves finalizing and closing the books on fiscal year 2021 financial data.

Casa de Maryland – Langley Park Beautification - \$58,524 award (\$42,500 Northern Gateway funds)

The long-term goal of this project is to build trust between Langley Park residents, particularly youth and the Prince George's County Police Department that will lead to a stronger partnership between the community and the police by eliminating crime hot spots and improve public safety in Langley Park. The ways that this will be accomplished will be: community graffiti cleanup; community mural paintings; community tree and shrub plantings and traffic box art wrap. Casa is in the process of updating the budget and getting agreements executed with stakeholders that will assist in the project.

The implementation plan included the purchase and manufacture of materials, the procurement of permissions, and community engagement during the period in which the COVID-19 pandemic has made such activities impossible and illegal. Contractors are unable to work, and we will miss the planting season, necessitating that all landscaping be pushed back to September and October. Creative community engagement continues but is limited by issues of virtual access and resources in our community.

CASA will be moving forward with the Traffic Art Box Wraps however, they are unable to be completed in a way that would include an appropriate amount of community engagement, outreach and input. Awaiting final documentation of project completion.

They have all made site visits and are conducting various studies and analyses that will inform the final drawings. A final addition size and layout has been finalized and details such as what HVAC system will be most appropriate for the museum collections are being considered. This work is happening in collaboration with both the City of Greenbelt, and Greenbelt Homes, Inc., as all plans developed will need to be approved by them. With the current COVID-19 crisis, the architects and engineers are continuing their work, but because the City and GHI employees are not as available, the approvals process will take even longer. This project is ongoing.
